PROFILE

Junior Developer equipped with a diverse and promising skill set. Proficient in modern front-end technologies including React and Vue. Able to effectively self-manage and self-teach during independent projects, as well as collaborate as part of a productive team in a fast-paced environment.

EMPLOYMENT HISTORY

Junior Front End Developer, Beauty Works

Manchester

Jul 2022 — Present

- Creating web pages for promotions and product launches using technologies like Magneto 2, HTML, CSS and JavaScript.
- Working with React components.
- Being the first line of support for any technical issues that the E-commerce team experience.
- Fixing visual bugs that are reported by customers or team members.
- Revamp all landing pages on the website to designs supplied by the Graphic Design team.
- Manage other no-code tools such as Attract and Dot Digital.

Business Development Manager, CleanCloud

London

Dec 2019 — Sep 2021

- Designed and created design documents and scope of work including user stories and acceptance criteria as propositions to clients for future feature development.
- Instrumental in the delivery of our software to over 500 Laundry branches in the Kingdom of Saudi Arabia bringing in over £300,000 per year in revenue.
- Maintained and managed client relationships internationally.

EDUCATION

Junior Developer, CodeNation

Preston

Oct 2021 — Dec 2022

- Designed and created full stack MERN applications using Agile methodologies within tight deadlines.
- Collaborated to create strategic initiatives to design, code, and test solutions.
- Effectively coded software changes and alterations based on specific design specifications.
- Created, communicated, and managed project plans.

Sep 2016 — Jul 2019

Graduated with a 2:1
